CBHS Health Fund Limited

ACN 087 648 717

ABN 87 087 648 717

A Registered Private Health Insurer

Registered Office: Level 5, 79 George Street,
Parramatta NSW 2150

About CBHS

In 1950 an idea was born from within one of Australia's leading financial institutions, the Commonwealth Bank of Australia.

The idea was simple; to provide the employees of the Commonwealth Bank with access to **affordable** health insurance from a distinguished organisation whose sole purpose was that of serving its members. A shared not-for-profit-cooperative, to which employees could exclusively **belong** and call their own. On the 1st of January 1951, the Commonwealth Bank Health Society (CBHS) was formed.

Today, well over 80,000 members, and their families, **trust** CBHS to provide them with complete **peace of mind** that CBHS will be there when it is needed most. In times of uncertainty, CBHS has provided thousands of Australian families with financial **relief** so that they can focus on what's most important – their wellbeing.

For CBHS, it's not about being the biggest health fund, it's about being a **market leader** in ways that are important to its members. CBHS has one of the highest claims payout ratios and one of the lowest management expense ratios allowing it to return more value to members. It is not surprising then, that CBHS is regularly awarded higher member satisfaction scores than most funds in the industry by some of Australia's highly respected research companies such as Roy Morgan and Choice Magazine.

CBHS will never stop striving to improve. Embracing **innovation** and a tenacious attitude towards **constant and never-ending improvement**, it will always be committed to delivering on its **Value Promise**, without compromising its not-for-profit philosophy.

Ultimately, we'll always be there for you at each stage of your life's journey, like a loyal companion, always ready to help.

Ultimately, we'll always be there for you at each stage of your life's journey, like a loyal companion, always ready to help.

186,000

CBHS continues to provide more members with peace of mind, with now more than 186,000 persons covered.

Delivering value to members

CBHS was awarded “2012 Private Health Insurer of the Year” at the recent Roy Morgan Research Australian Customer Satisfaction Awards for 2012. In 2013 CBHS continued to focus on delivering upon its value promise.

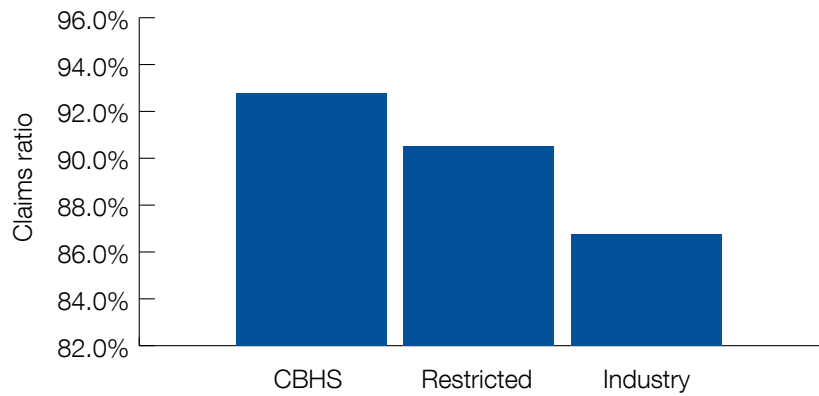

186,000 people now experience the benefits of CBHS membership.

Persons covered (thousands)

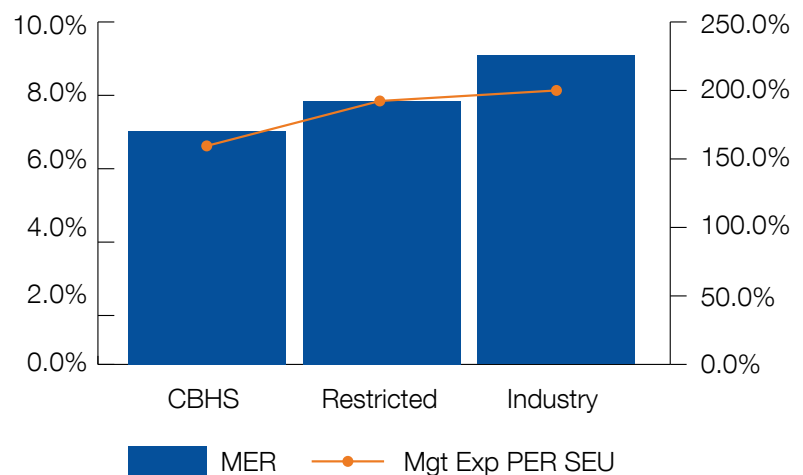

CBHS' member focus ensures we give back more to members than the industry average. In 2013 we paid out over 92 cents in claims for every premium dollar received.

7.0% increase in revenue, after providing members with a rate deferral to the value of \$3.5m.

In keeping with our philosophy, we continually look to improve the way we operate. This allows CBHS to maintain one of the lowest cost bases in the industry.

Message from the Chairman and CEO

Kerry Brinkley
Chairman

Paul Gladman
Chief Executive Officer

In early 2013, CBHS was very proud to win the Roy Morgan Research “Health Insurer of the Year 2012” award. This award measures satisfaction across a range of products and services for all providers in the industry.

It was extremely satisfying to have regular and positive feedback from members reinforced in this way. However, we know that the smaller not-for-profit funds dominate when it comes to customer service and value for money, so it is even more rewarding to know that we beat our peers in the not-for-profit sector too.

In 2013, CBHS membership grew by 3.5% such that it is now in excess of 80,000 members and with over 186,000 lives covered. The fact that we have again outgrown the industry is testament to the value that CBHS provides.

One example of how we endeavoured to enhance that value during 2013 was our decision to defer our premium rate increase for 3 months, i.e. from the usual 1st April implementation date to 1st July. For two years we have experienced a low claims environment contributing to year-on-year increased surpluses. As we have said before, however, low claims in one year should not mean a low price increase for the coming year because claims behaviour can, and usually does, revert back to normal or higher levels. Notwithstanding this uncertainty, we remained true to our member focus, i.e. to return as much as possible to our members. We chose to do this via both a premium rate increase which was well below the industry average and the deferral of the increase.

Despite continuing economic pressures on our members and rapidly escalating hospital and medical costs, CBHS has managed to deliver a solid set of financial results including an above-target surplus of \$14.4m. Our benefit/contributions ratio of 92.8% is particularly pleasing as this is the measure that represents our underlying commitment to being a health fund which strives to give back to members as much as possible.

Our Management Expense Ratio (MER) is another measure of which we have historically been very proud. This year we have seen it grow to 6.9% – a conscious decision on the part of the Board due to the decision to defer the implementation of the 2013 rate increase and some increased investment in strategic initiatives. Removing the effects of one-offs the underlying MER was 6%, which continues to be industry leading. We strongly believe that in order to continue to deliver value to our members and thrive, not just survive, we need to invest in new technology, new processes and new product

Our Management Expense Ratio (MER) is another measure of which we have historically been very proud.

development. Our strategy for the next three years sees significant investment in all of these areas.

As a not-for-profit fund, we pursue - and take great pride in achieving – a relatively lean average underwriting margin of 1.75% - this compares to an industry average of around

5%. One of the risks of such a lean margin, together with a low expense ratio, is that claims cost volatility will have a greater impact on pricing – there being less of a margin available to absorb the increased costs. To help offset this impact, we rely on income from our investments. In 2013, our portfolio, which now totals \$185m, returned \$13.3m or 8.3%. While this is an excellent result, we do not focus on, nor strive for, returns on a year-by-year basis. With our investments playing such a significant part in our overall returns, it is critical for us to ensure that our investment assets are working as hard as possible, but also with as little risk as possible. In other words, we will pursue consistency of returns over absolute size of return. To assist us in this pursuit, from July 1st we appointed a new investments advisor, Towers Watson, with whom we have worked very effectively to develop a clearer investment objective, a more relevant Strategic Asset Allocation and a revised strategic investment policy. The key principles of our policy include an

objective of achieving an average return of CPI plus 2.5% over a five year investment horizon (the Reserve Bank of Australia currently targets an inflation rate of between 2% and 3%), and a disciplined approach to monitoring of performance and to execution. As we approach the end of calendar year 2013, we have largely completed

our transition to our new asset allocation which represents a good blend of risk, returns, diversification and security.

CBHS enjoys a unique relationship with the Commonwealth Bank in which we feel we are a true partner rather than just a supplier. This is undoubtedly as a result of our heritage in once being a part of the Bank. Since 1996, we have been open to past employees (in addition to current employees) and since 2007 we have also been open to their family members. While these expansions have given us great growth potential over the past 17 years, the opportunity exists to further grow membership in this expanded market. In an effort to capture this opportunity and ensure that we continue to grow at above-industry levels, we have embarked upon a major strategic path which involves a number of clear programs of work including:

1. Identifying new distribution channels. An example of this is our decision to trial our products on a comparison website. Aggregators are becoming more popular among consumers and represent a great opportunity for CBHS to gain wider brand exposure and marketing in order to get in front of a much greater number of eligible members.
2. Self-service is an initiative which aims to increase the functionality of our website, and to provide mobile applications, such that more members can do more for themselves; something which has been identified as a clear requirement from our recent market research.

3. Product development is a normal part of our business but we have determined to focus on exploring new product opportunities in customer segments where we have traditionally not offered products.

Through these initiatives we aim to build upon our value promise of Greater Benefits, Lower Costs and Member Focus.

To support our strategy development for 2013 and beyond, we undertook significant market research. Thank you to all members who participated in this research. Some of the key insights which will serve as a foundation for our development work in the coming years are as follows:

1. Members are increasingly expecting and demanding full service via websites and even mobile devices. To this end, one of our major strategic projects is the redevelopment of our cbhs.com.au website to provide greater functionality, richer and more relevant content and easier navigation.
2. There is a market demand for lower cost products which CBHS does not currently satisfy. While we will always maintain a focus on value, we have also committed to better serve those members and prospective members who are looking for a lower cost alternative.
3. There is a need for member communication which is more customised i.e., relevant to the individual member, and goes beyond policy administration and

claims processing. We will, therefore, be looking to provide more pertinent information, either through the members' area of the website or via email.

Our recent member research also identified changing expectations regarding our hours of operation i.e., members and non-members expect us to be open outside of core business hours. In response to this, from 1st August this year we have extended our operating hours to 7.00am to 7.00pm. Not only will this better meet member expectations, it will also give us greater workforce flexibility such that much of our paperwork can be processed in the quieter periods, allowing more people to spend more time answering the phones in our peak periods.

Another example of our response to member feedback was the launch of our new "Prestige" product. The feedback said, among other things, that our top product should have no excess and that its name should unequivocally communicate 'the best'. To further cement the product's position as best of breed, we added a new service called "Best Doctors", a service which provides expert medical

opinions on diagnosis and treatment plans for members with critical illnesses. While the product is our most expensive, it is selling well among those people who absolutely want the best available.

Also reflecting the changing needs and preferences of our members, CBHS is now part of the social media world. To date we have been learning as much as anything else; learning what to do and, most importantly, what not to do. Consequently, we see social media as an immediate communications channel, as much for listening as for speaking, and a great opportunity to engage with those members who like to use this channel. However, it is not for everyone and so we will certainly not be prioritising it over more traditional communication channels.

Information technology always has been, and is increasingly, a major differentiator in business. For many years, CBHS has employed the services of an external software support company to facilitate our systems development. During 2013, we took the decision to bring this vital function back in-house. With a likely increasing agenda of government reform and, therefore, systems changes to support that reform, together with our own internally generated changes to support our strategic program, we decided that we needed much greater control over our core asset i.e.,

our member administration systems. This work involved the recruitment of our own systems development staff and the development of operational processes to replace those that were previously run on our

Also reflecting the changing needs and preferences of our members, CBHS is now part of the social media world.

Information technology always has been, and is increasingly, a major differentiator in business.

behalf. The increased costs of this initiative are not material and are offset by the benefits outlined above. All of this work was successfully completed in August 2013.

As we prepare for 2013/2014, we recognise that our members are being presented with an ever increasing amount of choice – and not just in private health insurance – and their expectations are increased every day as they become exposed to more self-service, more immediacy and more customisation. You, our members, have said that you expect this from CBHS too. So, we have committed to adding this into our value promise for this coming year.

We would like to take this opportunity to thank the directors, the Management team and the staff of CBHS for their continued commitment to helping deliver on this promise. And finally, we'd like to thank all of our members for their ongoing loyalty to our fund.

Kerry Brinkley

Chairman

Paul Gladman

Chief Executive Officer

Corporate Governance

Framework

The Constitution sets out various matters relating to the corporate governance practices of CBHS and can be viewed on the CBHS website (www.cbhs.com.au).

The role and responsibilities of the Board of Directors (the Board) are set out in the Board Charter. Through this Charter the Board is accountable to Members for the activities and performance of CBHS under the Constitution. Under the Charter a number of functions have been reserved to the Board. These functions include:

- approving the strategies and financial objectives of CBHS
- approving the annual business plan and budget
- approving major corporate and capital initiatives

- endorsing corporate governance programs
- approving investment management initiatives.

The functions performed by the Board are exercised within an appropriate risk management framework. To ensure that decisions are taken quickly and effectively, the Chief Executive Officer (CEO) has been delegated a number of authorities. These authorities are exercised within an extensive system of internal controls. Principal among the delegated authorities are the day-to-day management of CBHS along with developing and maintaining a culture of trust, honesty and integrity in the relationships entered into by CBHS.

Private health insurers (including CBHS) are required to comply with a number of prudential standards issued by the Private Health Insurance Administration Council (PHIAC). One of these standards, the Governance Standard, is intended to ensure that private health insurers are managed prudently, that boards have access to appropriate independent expertise and that the boards of insurers include

directors who have suitable competencies and experience to understand the relevant business issues and risks that they encounter.

The Board also endeavours, where applicable, to conform to the corporate governance principles and recommendations issued by the ASX Corporate Governance Council from time-to-time.

CBHS is committed to keeping its Members informed about general developments in corporate governance and the practical impact of those developments for CBHS. A dedicated corporate governance section is maintained on the CBHS website which also includes commentary about the risk management approach of CBHS.

Board of Directors

The Board comprises seven Directors. Each of the Directors is a non-executive director. Throughout the financial year each Director also confirmed that he or she was independent (that is, free from any business or other association with CBHS that could materially interfere with the Director's independent judgment). Details of each Director's experience, qualifications, special responsibilities and attendance at meetings are set out in the Directors' Report. In accordance with the Constitution, all Directors are members of CBHS.

The Board meets regularly to a schedule agreed prior to the start of each calendar year. The meeting agenda is designed to provide adequate information about operations and the environment in which

CBHS operates and to allow the Board to guide and monitor management and assist in involvement in discussions and decisions on strategy. Matters of a strategic nature including implementation of key strategic initiatives are given priority on the agenda. In addition, scheduled meetings are supplemented by special purpose meetings where required and at least one meeting annually has a detailed strategy review focus.

Directors, as provided for in the Constitution, have utilised "written resolutions" as a way to maximise efficiency. Such written resolutions are generally dealt with by using appropriate communication technology to enable decisions to be made by the Board where it is not possible or convenient to convene a physical meeting. These decisions are formally recorded in the minutes of the next meeting of the Board.

Directors are required to disclose any conflicts and material personal interests to the Board. Where necessary the Board will evaluate whether a Director should participate in the consideration of a matter by using the mechanism set out in the Corporations Act 2001. Each Director regularly reviews his or her position in order to avoid any situation where an interest might affect, or appear to affect, a decision made by the Board.

Managers responsible for critical areas of the business are requested from time-to-time to brief the Board and its Committees so as to assist Directors in maintaining their familiarity with and understanding of CBHS activities. These briefings contribute to the assessment made by the

Board about the performance of Management in running the business. External professionals and consultants also brief the Board and its Committees where appropriate.

The Board has in place a procedure whereby, after appropriate consultation, Directors are entitled to seek independent professional advice at the expense of CBHS to assist them carry out their duties as Directors. The policy provides that any such advice is generally made available to all Directors at the request of the Chairman.

The Constitution provides that the maximum aggregate term of a director is 12 years. For directors in office at the time of this change, the 12 year aggregate is to be calculated from 20 November 2003. The Board periodically assesses its performance, policies and practices along with the skills, experience and expertise that are required to competently discharge the Board's duties, having regard to the strategic direction of the Company. Directors participate in an induction program upon appointment and in relevant industry education sessions where appropriate. Industry education includes sessions with experts in the particular fields relevant to CBHS operations. The training and education programs ensure Directors keep up to date with developments in a dynamic and challenging industry. Directors are also encouraged to attend and actively participate in education sessions and courses offered by the Australian Institute of Company Directors and other relevant professional institutions.

Relationship with Management

The Board has delegated to the CEO the authorities and powers necessary to achieve the Vision of CBHS. The authorities are designed to accelerate decision-making processes, improve efficiency and service to members.

The CEO may further delegate within a comprehensive set of Management delegations and guidelines. The CEO remains accountable for all authority delegated to Executive Management.

Board Committees

The Board is supported by four Committees which meet regularly to consider the audit process, board composition, investment and capital management, remuneration and people matters. Each Committee operates under a Charter, approved by the Board, which is reviewed from time-to-time. Board Committees have delegated authority within their Charter of responsibilities and make recommendations to the Board. Activities of each Committee are reported to the Board.

Details about the membership of Committees and the attendance of members at Committee meetings are set out in the Directors' Report.

Audit Committee

The purpose of the Audit Committee is to assist the Board to fulfill its statutory and fiduciary responsibilities relating to the financial reports, the risk management framework, the independence of the auditors and regulatory compliance.

In practice the Audit Committee provides an objective non-executive review of the effectiveness of the external reporting of financial information, the strength of systems, process and control frameworks (including over outsourced functions) and the strength and reliability of management practice and internal and external audit services.

- reviewing all material accounting matters that require the exercise of judgement by Management together with the reporting of those matters to the Board
- monitoring the effectiveness of the risk management framework (including the Risk Management Plan) and the internal control environment
- evaluating the independence of the external auditor.

During the 2013 financial year, the Audit Committee devoted a significant amount of time to reviewing the way in which CBHS identifies and manages its strategic risks. This review was against the background of the extensive strategy development

The Charter of the Audit Committee meets the requirements for the responsibilities of an Audit Committee set out in the PHIAC Governance Standard.

The Charter of the Audit Committee meets the requirements for the responsibilities of an Audit Committee set out in the PHIAC Governance Standard. The Audit Committee's responsibilities include:

- oversight of Management in the preparation of the financial statements and financial disclosures and PHIAC statutory regulatory requirements
- reviewing accounting policies adopted by CBHS to ensure compliance with relevant laws and accounting standards

initiatives that were identified in the latter part of 2012-13.

The Audit Committee relies on the information provided by Management, the Internal Auditor and the External Auditor and a critical part of its oversight function includes meeting separately with both the External and the Internal Auditors, in the absence of Management, on a regular basis. In addition, the Audit Committee considers, in the absence of Management and the Auditors, the quality of the information it receives.

CBHS currently requires the partner of CBHS' External Auditor responsible for managing the CBHS audit to be rotated after a period of five years.

The CEO is authorised to appoint and remove the Internal Auditor only after consultation with the Audit Committee.

Membership of the Audit Committee consists of financially literate non-executive Directors. In accordance with the PHAC Governance Standard the Chairman of the Audit Committee is an independent Director. The Board has also decided that at least one Director must have expertise in financial accounting and reporting. The Chairman of the Board is not permitted to be Chairman of the Audit

- the processes for the annual review of the performance of individual Directors and the Board as a whole
- review of the Board's succession plan to ensure that CBHS maintains an appropriate balance of skills, expertise and experience on the Board
- review of the succession planning requirements for the CEO.

The work of the Nomination Committee includes responsibility for reviewing CBHS' compliance with the "renewal" policy requirements of the PHAC Governance Standard (i.e. the renewal of directors on the board). With respect to Director

The CEO is authorised to appoint and remove the Internal Auditor only after consultation with the Audit Committee.

Committee. The CEO, Executive Managers, Appointed Actuary, Internal Auditor and External Auditor attend by invitation.

Nomination Committee

The Nomination Committee reviews the composition and effectiveness of the Board. In addition to its role in proposing candidates for director appointment for consideration by the Board, the Nomination Committee has oversight responsibility with respect to:

- the establishment of processes by which the skill, experience and expertise levels of Directors can be enhanced (including through both continuing education and induction programs)

appointments, the Constitution requires that Directors must stand for re-election at least every three years on a rotation basis. In addition to the three year re-election requirement, new Directors appointed by the Board to fill casual vacancies must seek election at the Annual General Meeting of Members which immediately follows their appointment.

Meetings of the Nomination Committee may also include the CEO, Executive Managers and other professionals by invitation.

Investment Committee

The Board has established an Investment Committee with a Charter to review, develop and monitor all investment-related activities.

Key responsibilities of the Investment Committee include making recommendations to the Board on appropriate risk and return objectives, strategic benchmarks, investment structures, investment target allocations and investment delegations for CBHS' investment portfolio. The work of the Investment Committee includes reviewing, recommending investment managers and reviewing the performance of those managers and the investment portfolio as a whole.

To assist in undertaking this work, the CBHS Investment Committee has for a number of years been supported by an external investment advisor. Towers Watson was formally appointed as CBHS's investment advisor effective 1 July 2012. Throughout 2012-13, Towers Watson assisted the Investment Committee in a detail review and update of the Investment Policy Statement (IPS). The IPS is intended to ensure that appropriate oversight is provided over CBHS investments and that, ultimately, effective returns are delivered according to identified objectives and risk tolerances. The appointment of Towers Watson recognised the changing nature of investment markets and experiences, and the benefits of pre-eminent advice in the management of the investment portfolio.

People & Remuneration Committee

The principal responsibilities of the People and Remuneration Committee are to:

- consider and recommend to the Board the remuneration, performance payments and KPIs of the CEO;
- be informed of leadership performance, legislative compliance in employment issues, industrial agreements and occupational health and safety;
- approve the aggregate of the remuneration adjustments and the performance payment structure for senior executives;
- review succession plans for key management employees;
- review the remuneration process for general staff; and
- review people policies.

The Board and the People and Remuneration Committee recognise that, while remuneration is important in recruiting, retaining and motivating talented and effective people, other factors also play a major role. These include the corporate reputation of CBHS, its ethical culture and business values, its executive leadership and other people policies.

Meetings of the People and Remuneration Committee may also include the CEO, Executive Managers and other professionals by invitation.

Board and Committee Performance Assessment

In accordance with the PHIA Governance Standard, CBHS has a policy to assess (on an annual basis) the performance of the Board, Committees and individual Directors against each of their performance objectives. The assessment of performance for the Board, Committees and Directors is undertaken prior to the commencement of the meeting programs for each calendar year.

Directors' Remuneration

The aggregate remuneration of independent non-executive Directors is determined, from time-to-time, by a general meeting, as specified in the Constitution. The aggregate sum is divided between the Directors as they agree. The policy of the Board is that the aggregate amount should be set at a level which provides CBHS with the necessary degree of flexibility to enable it to retain the services of Directors of the highest calibre. The last determination was at the AGM held on 28 October 2010, when members approved an aggregate remuneration of \$300,000 per annum. Details of Directors' remuneration are set out in note 26. Directors' fees do not incorporate any bonus or incentive element.

Chief Executive Officer Remuneration

The Board, pursuant to the Constitution, fixes the remuneration of the CEO as part of the terms and conditions of appointment. Remuneration is reviewed on an annual basis by the Board. The CEO's remuneration includes an appropriate level of "at risk" remuneration in the form of a performance payment. The payment, where it is payable, is made annually and relates to CBHS' performance across a range of key result areas and to the CEO's individual contribution with respect to a range of performance targets.

Executive Management Remuneration

CBHS policy in respect of Executive Management incorporates remuneration that is competitively set so that CBHS can attract, motivate and retain high calibre executives to lead the company. The policy contains variable pay for performance elements which link reward with the strategic goals and performance of CBHS as well as individual performance. The People and Remuneration Committee reviews remuneration annually through a process that also considers relevant comparative remuneration in the market.

Executive Management Performance Assessment

Executive Management (including the CEO) have individual and company-wide key performance indicators (KPIs) set at the commencement of each financial year. The KPIs of the CEO are finalised following the Board's approval of the annual business plan. The KPIs of the senior management team are usually finalised after the CEO's targets have been set.

A performance payment potential is established for each executive and senior manager at the commencement of the financial year. The payment, where it is payable, is an annual payment that relates to performance against a range of targets. Performance payments were made to senior managers in October 2012. These payments related to the performance of each employee for the 2011/2012 financial year.

Deed of Indemnity for Directors

At the 2012 AGM, Members approved CBHS entering into a deed of indemnity (in the form tabled at the meeting) with current and future Directors. Deeds of indemnity have been executed by CBHS with each Director in a form consistent with the approval of Members. The deeds provide an appropriate indemnity for each Director and clarify the rights and obligations of a Director with respect to access to documents and records, confidentiality, notification and conduct of claims, advances of legal costs until the finalisation of a claim and insurance against claims.

Risk Management

The Board and Management of CBHS see risk management as a discipline for ensuring achievement of business objectives rather than as an administrative compliance exercise. To this end the Board and Management have spent considerable time over the last few years evaluating the various risks facing the business, with particular focus on material strategic risks. This has helped formulate the Board's risk appetite for operating in the current environment and has created a discipline for the Board to review and focus on those higher level strategic risks that could ultimately jeopardise the viability of the business. Our risk management approach also allows CBHS to explore the opportunities that can be pursued whilst mitigating the risk. This strategic approach to risk management has helped direct our efforts to just those initiatives that will truly ensure the sustainability of our business.

CBHS also has a comprehensive system of operational risk management and controls. This risk management framework is critical to the safety, reputation and sustainability of the operations of the Company and to the ongoing viability of the health benefits fund operated by CBHS. A detailed Risk Management Plan has been in place over a number of years which sets out the various elements of the risk management framework and also documents the actions the Company will take to ensure risks are appropriately handled. CBHS also utilises risk management software to identify and manage operational risks. The various risk management practices are

undertaken within the overriding principle that business risk is a basic line management responsibility – all managers, not just the CEO, share that responsibility. Independent review of the way in which Management has assessed risks and implemented internal controls within the risk management framework is carried out through Internal Audit.

Both the Board and the Audit Committee receive frequent updates about the management of operational and strategic risk. At each Board meeting, the CEO updates the Board on developments in relation to the material strategic risks facing CBHS. The Audit Committee also reviews business risks on a regular basis, with Management advising the Committee about CBHS risk management practices during each Audit Committee meeting.

As part of the sign-off for the financial reports, Management completes a Management Certification and Representation questionnaire on various matters relevant to the financial statements and internal control framework. Also included in the Certification is an assurance from the CEO and Chief Financial Officer that the risk management and internal control systems are effective.

At the conclusion of each financial year the Board is required to empower two Directors to certify the annual PHIAC Risk Management Statement. The Statement acknowledges that CBHS has adequate control systems to measure, monitor and manage risk.

CBHS Workplace Philosophy

CBHS has a general duty of care to ensure the health, safety and welfare at work of all employees and others who come into the workplace. In line with this, CBHS is committed to maintaining a work environment that is free of any form of unlawful discrimination, harassment or bullying. Through the implementation of effective anti discrimination policies, procedures and targeted training programs, CBHS provides a workplace culture that is fair and equitable in all aspects of employment and where employees are treated with respect and dignity.

A system has been established which allows staff to maintain their confidentiality should they wish to report behaviour issues.

CBHS has a policy of diversity in employment tailored to the unique circumstances and requirements of the Company. This policy leads to a variety of skills, experience and personal qualities in its employees. This commitment allows CBHS to reap the corporate benefits of its employee and director talent – benefits which serve to enhance CBHS' capacity to provide a quality service to its Members.

Monitoring

The financial performance of CBHS is monitored through regular Management reporting of performance against budgets. These budgets have been established by Management and approved by the Board. The External Auditors review and test the system of internal controls, to the extent necessary, for an independent opinion on the financial statements at the end of the year.

Systems

The systems of information technology and internal financial controls are designed to provide assurance against material misstatement or loss by enabling the timely identification of problems that require the

A system has been established which allows staff to maintain their confidentiality should they wish to report behaviour issues.

attention of Management or the Board. These controls have been established by Management and are reviewed from time-to-time by the Audit Committee and the Board.

Private Health Insurance Code of Conduct

CBHS operates and is accredited under the Private Health Insurance Industry Code of Conduct. The Code forms the basis for the manner in which the people of CBHS perform their work by requiring CBHS to operate its business in an open and honest manner with Members, employees, providers, the regulator (PHIAC) and the health insurance industry.

The Code promotes informed relationships between private health insurers and consumers. The objective of the Code is to enhance regulatory compliance and service standards across the industry.

Directors' Report

The Directors of CBHS Health Fund Limited (CBHS) submit their report together with the financial report of CBHS for the year ended 30 June 2013. In order to comply with the provisions of the Corporations Act 2001, the Directors report as follows:

Board of Directors

The following persons held office as Directors during or since the end of the financial year:

- Kerry Brinkley (Chairman)
- Leslie Moth (Deputy Chairman)
- Kevin Bourke
- Michelene Hart
- Marielle Latour
- John Matthews
- Ronda Ryan (retired from the Board on 8 November 2012)
- Fintan Thornton (was appointed to the Board on 8 November 2012)

Information on Directors

Kerry Maree Brinkley

Ms Brinkley has been a member of CBHS since February 1973. She has been a Director of CBHS since January 1993, and was elected Chairman on 25 November 2008. She is the Chairman of the Nomination Committee and a member of the People and Remuneration Committee. Ms Brinkley is the Managing Director of Directioneering Queensland Pty Ltd. Ms Brinkley has had 20 years' experience in various roles within the Commonwealth Bank (the Bank). Following her time in the Bank, Ms Brinkley occupied the roles of CBA Section Secretary and Queensland Branch Secretary (CBA Section) within the Finance Sector Union

of Australia and then operated a successful Industrial Relations Consultancy, Kerry Brinkley Consulting Pty Ltd. She is a graduate of Harvard University, Trade Union Program 1997, which included topics of law, economics and the American Health Systems. Ms Brinkley is a graduate and fellow of the Australian Institute of Company Directors.

Leslie George Moth

Mr Moth has been a member of CBHS since February 1968. He has been a Director of CBHS since December 2006, and was elected Deputy Chairman on 25 November 2008. He is Chairman of the Investment Committee, as well as a member of the Audit and Nomination Committees. Mr Moth retired from the Bank in 2004 following a career spanning 36 years. During this time he performed senior roles including leadership roles within a number of subsidiary companies of the Bank Group. Mr Moth holds a Bachelor of Economics with Honours, is a Fellow of the Financial Services Institute of Australasia and is a Certified Professional Member of the Australian Human Resources Institute.

Kevin Gerard Bourke

Mr Bourke has been a member of CBHS since August 1963. He was elected a Director of CBHS in November 2002 and is a member of the People and Remuneration Committee. He has had over 38 years experience with the Commonwealth Bank Group and held executive positions in Branch Management, Property Project Management, Corporate

Finance, Human Resources and Financial Services. He was the Company Secretary of the Financial Services group of subsidiary companies for seven years and the Assistant Company Secretary of the Bank from 1996 until his retirement in November 2001. He is also a Fellow of Chartered Secretaries Australia, Fellow of the Financial Services Institute of Australasia, and Fellow of the Institute of Public Accountants.

Micheline Hart

Ms Hart has been a member of CBHS since April 2005. She has been a Director of CBHS since December 2006 and is Chairman of the Audit Committee and a member of the Investment Committee and Nomination Committee. Ms Hart has over 25 years experience in financial services (including over 20 years within the Bank and the Colonial Group). She has operated for the last 15 years at a board and general management level in asset management, superannuation, insurance and banking. Most recently she has been the Chief Executive Officer of a listed investment company, Managing Director of a listed property trust and is currently the principal and co-founder of Yorkway Capital Partners, an independent investment advisory firm. Ms Hart's professional experience includes general business management, strategy development, finance, governance, risk management and corporate finance. Ms Hart is a CPA and holds a Bachelor of Economics, an Executive MBA and a Graduate Diploma in Applied Finance and Investments.

Marielle Desiree Latour

Ms Latour is a member of CBHS and was appointed by the Board in May 2010. She is a member of the Audit Committee and Investment Committee. Ms Latour has over 25 years experience in financial services having worked for organisations including the Bank, Colonial Group and Tower Australia Limited. Her professional experience is in marketing and the operational management of businesses. She has held senior management positions in marketing, strategy and project management. Ms Latour holds an Executive MBA and a Bachelor of Economics.

John Eric Matthews

Mr Matthews has been a member of CBHS since 1964 and a Director since September 2008. He is Chairman of the People and Remuneration Committee and a member of the Nomination Committee. Mr Matthews retired from the Bank in 2004 after a career of 40 years, during which he held senior executive positions in Australia and overseas. He has extensive experience in treasury management and human resources. Mr Matthews holds several company directorships/committee memberships. He holds a Bachelor of Economics degree from Sydney University, is a graduate of the International Advanced Management Programme (IMI Geneva), a Senior Fellow of the Financial Services Institute of Australasia and a member of the Australian Institute of Company Directors.

Fintan Benedict Thornton

Mr Thornton is a member of CBHS and was appointed as a Director in November 2012 and is a member of the Audit Committee. Mr Thornton has over 14 years' financial services experience. Mr Thornton's current role is Head of Employee Superannuation at the Commonwealth Bank of Australia. He has previously worked as a consulting actuary for Towers Watson and Russell Investments. Mr Thornton's financial services experience is predominantly in superannuation (including complex defined benefit arrangements) where he advised companies and super funds on asset/liability matters (i.e. investments), risk management,

communications, governance and strategy development. Amongst other appointments, Mr Thornton was actuary to Qantas Airways, the Reserve Bank of Australia and the NZ Government. Mr Thornton also held the role of executive adviser to Russell Investment's Australia/NZ CEO. Mr Thornton holds a Bachelor of Actuarial Mathematics and Statistics degree and is a Fellow of the UK and Australian Actuaries Institutes and is a Member of the Australian Institute of Company Directors. Mr Thornton is actively involved in the Actuaries Institute where he supports its Risk Management Committee on developing guidance for actuaries on various matters including Enterprise Risk Management.

Ronda Jan Ryan

Ms Ryan retired from the Board on 8 November 2012. Ms Ryan has been a member of CBHS since July 1997 and was a Director since November 2000. She has experience in a broad range of industries including financial services and media having worked for organisations including the Bank, Westpac, National Australia Bank, and News Limited. Her professional experience is in Project and Program Management and the Operational management of IT. Ms Ryan holds an MBA and is a graduate member of the Australian Institute of Company Directors

Directors' Meetings

The number of Directors' meetings (including meetings of Committees of Directors) and number of meetings attended by each of the Directors of CBHS during the financial year were:

Directors	Board		Audit Committee		People & Remuneration Committee	
	No. of meetings eligible to attend	No. of meetings attended	No. of meetings eligible to attend	No. of meetings attended	No. of meetings eligible to attend	No. of meetings attended

Company Secretary

Mr Nick Elvin was appointed Company Secretary in June 2008. He joined CBHS following a 16 year career in the public and private sectors encompassing areas such as risk management, legal and industrial advocacy, employee relations and human resources. Mr Elvin worked in the Bank for over 5 years and held governance responsibilities while working in the Bank's global markets risk team. Mr Elvin has a Bachelor of Economics and a Bachelor of Laws, was admitted as a Solicitor of the NSW Supreme Court in 1993 and obtained the Graduate Diploma of Company Secretarial Practice in 2001. Mr Elvin is a Chartered Secretary and holds Associate membership of Chartered Secretaries Australia.

Indemnification of officers or auditor

During the financial year, CBHS paid a premium in respect of a contract insuring all past, present and future directors, company secretaries, and

executive officers of CBHS against any liability incurred as a director, secretary or executive officer to the extent permitted by the Corporations Act 2001. In accordance with commercial practice the contract of insurance prohibits disclosure of the terms of the policy including the nature of the liability insured against and the amount of the premium.

CBHS has not otherwise, during or since the financial year, indemnified or agreed to indemnify an officer or auditor of CBHS or of any related body corporate against a liability incurred as an officer or auditor.

Principal activities

The principal activity of CBHS during the financial year was the provision of health insurance and related well being services to its members, their dependants and immediate family members.

Dividends

The Constitution of CBHS prohibits the payment of dividends.

Review of operations

The net amount of surplus for the financial year was \$14,371,245 (2012: \$19,216,494 surplus). CBHS is exempt under section 50-30 of the Income Tax Assessment Act 1997 from paying income tax.

A review of operations and the results for the financial year are set out in the Chairman's and CEO's messages.

Changes in state of affairs

During the financial year there was no significant changes in the state of affairs of CBHS.

Subsequent events

There has not been any matter or circumstance, occurring subsequent to the end of the financial year that has significantly affected, or may significantly affect the operations of CBHS, the results of those operations, or the state of affairs of CBHS in future financial years.

Details of the amounts paid or payable to the auditor for audit and non-audit services provided during the year are provided in note 25 to the accounts.

Environmental regulation

CBHS has assessed whether there are any particular or significant environmental regulations which apply to it and has determined that there are none.

Non-audit services

The Company may decide to employ the auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the company, are important.

Details of the amounts paid or payable to the auditor for audit and non-audit services provided during the year are provided in note 25 to the accounts.

The Board has considered the position and, in accordance with advice received from the Audit Committee, is satisfied that the provision of the non-audit services is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. The Directors are satisfied that the provision of non-audit services by the auditor did not compromise the auditor independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services have been reviewed by the Audit Committee to ensure they do not impact the impartiality and objectivity of the auditor;
- none of the services undermine the general principles relating to auditor independences as set out in APES 110 Code of Ethics for Professional Accountants.

Auditor's independence declaration

The auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out on page 31 of the annual report.

Future developments

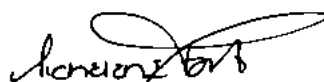

Disclosure of information regarding likely developments in the operations of CBHS in future financial years and the expected results of those operations would result in unreasonable prejudice to CBHS. Accordingly, this information has not been disclosed in this report.

Signed in accordance with a resolution of the directors made pursuant to section 298 (2) of the Corporations Act 2001.

On behalf of the Directors.

K. M. Brinkley
Chairman

M Hart
Director

Dated at Sydney 29th day of August 2013

Auditor's Independence Declaration

As lead auditor for the audit of CBHS Health Fund Limited for the year ended 30 June 2013, I declare that to the best of my knowledge and belief, there have been:

- a) no contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- b) no contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of CBHS Health Fund Limited during the period.

A handwritten signature in black ink, appearing to read 'R Balding', with a large, sweeping flourish at the end.

Notes to the Financial Statements

1) Summary of Significant accounting policies

Statement of compliance

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board, Urgent Issues Group Interpretations and the Corporations Act 2001.

The financial statements of CBHS also comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standard Board (IASB).

The financial statements were authorised for issue by the Directors on 29 August 2013.

Basis of preparation

The financial report has been prepared on the basis of historical cost, except for the revaluation of certain non-current assets and assets backing general insurance liabilities. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars.

The following significant policies have been adopted in the preparation and presentation of the financial report.

New Accounting Standards and Interpretations

Standards, interpretations and amendments available for early adoption were not applicable to CBHS and hence have not been applied in these financial statements.

Significant accounting policies

Insurance Policies

a. Insurance Contracts

Insurance contracts are defined as those containing significant insurance risk at the inception of the contract, or those where at the inception of the contract there is a scenario with commercial substance where the level of insurance risk may be significant over time. The significance of insurance risk is dependent on both the probability of an insurance event and the magnitude of its potential effect.

Once a contract has been classified as an insurance contract, it remains an insurance contract for the remainder of its lifetime, even if the insurance risk reduces significantly during this period.

CBHS has determined that all current contracts with members are insurance contracts.

b. Revenue

Revenue is recognised to the extent that it is probable that the economic benefit will flow to CBHS and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable. The following specific recognition criteria must also be met before revenue is recognised.

Premium revenue

Premium revenue comprises premiums from private health insurance contracts held by policy holders.

Premium revenue comprises contributions received from members, inclusive of the Government rebate. The rebate is recognised in the Statement

of Comprehensive Income as premium revenue. Rebates due from the Government but not received at balance date are recognised as receivables.

Premium revenue is recognised in the income statement from the attachment date over the period of the contract. Premium revenue relating to future financial periods is classified as unearned premium. Revenue includes the movement in contributions in arrears which is assessed based on the likelihood of collection established from past experience.

Investment income

Interest revenue is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the asset's net carrying amount.

Net fair value gains or losses are recognised in the period for all financial assets classified as at fair value through profit or loss.

c. Goods and services tax

Revenue, expenses and assets are recognised net of the amount of goods and services tax (GST), except:

- i. where the amounts of GST incurred are not recoverable from the taxation authority, it is recognised as part of the cost of acquisition of an asset or as part of an item of expenses; or
- ii. for receivables and payables which are recognised inclusive of GST.

The net amount of GST recoverable from, or payable to, the Australian Taxation Office (ATO) is included as part of receivables or payables.

Cash flows are included in the cash flow statement on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the ATO is classified as operating cash flows. Under the Goods and Services Tax Act 1999 subsection 38-55, the majority of CBHS income is GST free.

d. Claims

Health insurance claims incurred include all claim losses during the year, whether reported or not, including the related handling costs and any adjustments to claims from previous years.

Claims handling costs include internal and external costs incurred in connection with the negotiation and settlement of claims. Internal costs include all direct expenses of the claims department and any part of the general administrative costs directly attributable to the claims function.

e. Health Benefits Risk Equalisation Trust Fund

Under the provisions of the Private Health Insurance Act 2007, all health insurers must participate in the Health Benefits Risk Equalisation Trust Fund, which charges a levy on all health insurers. The levy is calculated based on the proportion of hospital and medical claims of all persons aged 55 years and older as well as any person with high cost claims.

The amounts payable to the Risk Equalisation Trust Fund are determined by the Private Health Insurance Administration Council after the end of each quarter. Estimated provisions for amounts payable are recognised on an accruals basis.

f. Other underwriting expenses

With the exception of expenses related to salaries and employee benefit expenses, all other expenses are classified as underwriting expenses.

g. Taxation

CBHS is a Private Health Insurer registered under the Private Health Insurance Act 2007 and is exempt from income tax and capital gains tax under section 50-30 of the Income Tax Assessment Act 1997.

h. Trade and other payables

Trade payables and other accounts payable are recognised when CBHS becomes obliged to make future payments resulting from the purchase of goods and services.

i. Financial assets

Investments are recognised and derecognised on trade date where the purchase or sale of an investment is under a contract whose terms require delivery of the investment within the timeframe established by the market concerned, and are initially measured at fair value, net of transaction costs, except for those financial assets classified as at fair value through profit or loss which are initially measured at fair value.

Financial assets are classified into 'trade and other receivables' and 'financial assets at fair value through profit or loss'. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

Financial assets at fair value through profit or loss

CBHS has classified its investments (Term Deposits and managed funds) as financial assets at fair value through profit or loss since these investments are assets backing general insurance liabilities. Financial assets at fair value through profit or loss are stated at fair value, with any resultant gain or loss recognised in profit or loss.

In estimating the fair value of financial assets CBHS has adopted the following approaches:

- where financial instruments are traded in active markets and valuations are determined with reference to unadjusted quoted prices for identical assets, CBHS has utilised the market value of these instruments as advised by relevant financial institutions; or
- where financial instruments are traded in currently inactive markets, CBHS has adjusted the value of these instruments as advised by relevant financial institutions to reflect observable market activity.

Financial Assets – trade and other receivables

Trade and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'receivables'. Receivables are measured at amortised cost using the effective interest method less impairment.

Impairment of financial assets – trade and other receivables

Trade and other receivables are assessed for indicators of impairment at each balance sheet date. Such financial assets are impaired where there

is objective evidence that as a result of one or more events that occurred after the initial recognition of the financial asset the estimated future cash flows of the investment have been impacted. For financial assets carried at amortised cost (such as receivables), the amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The loss is recognised in profit or loss.

j. Property, plant and equipment

Land and building

As at 30 June 2012 land and buildings were classified as "asset held for sale". For the period 1 July 2012 to the date of sale 24 January 2013, the building was not depreciated. For prior period where land and buildings were classified as "land and buildings" the treatment within the financial statements was as follows:

Land and building was measured at fair value. Fair value was determined on the basis of an annual independent valuation prepared by external valuation experts, providing an assessment of the market environment at reporting date. The fair value was recognised in the financial statements and was reviewed at the end of each reporting period to ensure that the carrying value of land and building was not materially different from the fair value.

Any revaluation increase arising on the revaluation of land and building was credited to the asset revaluation reserve, except to the extent that it reverses a revaluation decrease

for the same asset previously recognised as an expense in profit or loss, in which case the increase is credited to the income statement to the extent of the decrease previously charged. A decrease in carrying amount arising on the revaluation of land and building was charged as an expense in profit or loss to the extent that it exceeds the balance, if any, held in the asset revaluation reserve relating to a previous revaluation of that asset.

Depreciation of the revalued building was charged to profit or loss. On the subsequent sale or retirement of a revalued property, the attributable revaluation surplus remaining in the asset revaluation reserve, was transferred directly to retained earnings.

Plant and equipment

Plant and equipment are stated at cost less accumulated depreciation. Cost includes expenditure that is directly attributable to the acquisition of the item. In the event that settlement of all or part of the purchase consideration is deferred, cost is determined by discounting the amounts payable in the future to their present value as at the date of acquisition.

Depreciation is provided on property, plant and equipment, including freehold building but excluding land. Depreciation is calculated on a straight line basis so as to write off the net cost or other revalued amount of each asset over its expected useful life to its estimated residual value. The estimated useful lives, residual values and depreciation method are reviewed at the end of each annual reporting period with the effect of any changes recognised on a prospective basis.

The following estimated useful lives are used in the calculation of depreciation:

Description	Useful life
Buildings	30 years
Computer Equipment	3 years
Furniture and Fittings	7 years
Office Equipment	4 years

k. Employee benefits

Provision is made for employee benefits accumulated as a result of employees rendering services up to the reporting date. These benefits cover wages and salaries, annual leave and long service leave. Sick leave is non-vesting and is accounted for as incurred.

The liability for wages and salaries, annual leave and any other employee entitlements expected to be settled within twelve months of the reporting date, is calculated at current remuneration rates which are expected to be paid when the liability is settled.

The liability for long service leave entitlements represents the present value of the estimated future cash outflows to be made. In determining future cash outflows, consideration has been given to future increases in wage and salary rates, and the probability that employees will remain with CBHS for the period of time necessary to qualify for long service leave. The calculation includes related on-costs. In calculating the present value, the estimates of future cash outflows are discounted using the rates attaching to government guaranteed securities which have terms to maturity approximating the terms of the related liability.

Employee entitlement expenses and contributions made to superannuation funds by CBHS are recognised against profit when due.

l. Outstanding claims liability

The liability for outstanding claims is measured as the central estimate of the present value of expected future payments against claims incurred at the reporting date under health insurance contracts issued by CBHS, with an additional risk margin to allow for the inherent uncertainty in the central estimate.

The expected future payments include those in relation to claims reported but not yet paid, claims incurred but not reported, anticipated claims handling costs and the expected payment to the Health Benefits Risk Equalisation Trust Fund.

Claims handling costs include administration costs regarding the processing of these claims.

In assessing the outstanding claims liability CBHS seeks advice from its Appointed Actuary.

m. Provisions

Provisions are recognised when CBHS has a present obligation (legal or constructive) as a result of a past event, it is probable that CBHS will be required to settle the obligation and a reliable

estimate can be made of the amount of obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from members, the receivable is recognised as an asset if it is virtually certain that recovery will be received and the amount of the receivable can be measured reliably.

n. Leases

Leases in which a significant portion of the risks and rewards of ownership are not transferred to CBHS as lessee are classified as operating leases (see note 29). Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease.

o. Cash and cash equivalents

Cash comprises cash on hand; cash in bank and “24 hour” money at call. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash which are subject to an insignificant risk of change in value.

CBHS also maintains a portfolio of term deposits and many of the term deposits have the characteristics of cash

equivalents. These term deposits have not been categorised as cash equivalents and have been instead categorised as financial assets at fair value through profit or loss, given these term deposits are not utilised as business working capital in the same way as cash and cash equivalents.

p. Impairment of non-financial assets

Non-financial assets that have an indefinite useful life are subject to amortisation and are tested annually for impairment or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows. The inflows for these assets are largely independent of the cash inflows from other assets or groups of assets (cash-generating). Non-financial assets that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

q. Liability adequacy test and unexpired risk liability

The liability adequacy test is required to be performed to determine whether the unearned premium liability is adequate

to cover the present value of expected cash flows relating to future claims arising from rights and obligations under current insurance contracts, plus an additional risk margin to reflect the inherent uncertainty in the central estimate.

The liability adequacy test is performed at the level of a portfolio of contracts that are subject to broadly similar risks and that are managed together as a single portfolio.

If the present value of the expected future cash flows relating to future claims plus the additional risk margin to reflect the inherent uncertainty in the central estimate exceeds the insurance liability then the insurance liability is deemed to be deficient. CBHS applies a risk margin to achieve the same probability of sufficiency for future claims as is achieved by the estimate of outstanding claims liability. The entire deficiency is recognised immediately in the income statement. The deficiency is recognised in the balance sheet as the “Unexpired Risk Liability”.

If the liability adequacy test identifies that the insurance liability exceeds the expected future cash flows relating to future claims taking into account the additional risk margin then no recognition occurs in the income statement and balance sheet.

In assessing the unexpired risk liability CBHS seeks advice from its Appointed Actuary.

r. Acquisition cost for health insurance contracts

Acquisition costs incurred in obtaining health insurance contracts are expensed and not deferred.

s. Assets backing general insurance liabilities

All investments held by CBHS, excluding land and building as this is owner occupied, have been determined to be assets backing general insurance liabilities, and accordingly are designated as "at fair value through profit or loss". These are initially recorded at cost and subsequently re-measured at fair value. Interest earned or dividends/distributions received are included in interest income or fair value gains/(losses).

t. Intangible assets

Software is recorded at cost less accumulated amortisation and impairment. Amortisation is charged on a straight-line basis over the estimated useful life of 3 years. The estimated useful life and amortisation method is reviewed at the end of each annual reporting period, with any changes in the accounting estimate being accounted for on a prospective basis.

u. Critical accounting judgements and estimates

In the application of CBHS' accounting policies, which are described in note 1, management is required to make judgments, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant, the results of which form the basis of making the judgments. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

v. Critical judgements in applying the entity's accounting policies

The following are the critical judgements that management has made in the process of applying CBHS' accounting policies and that have the most significant effect on the amounts recognised in the financial statements:

i. Outstanding claims liability

Provision is made during the year for the estimated cost of claims incurred but not settled at balance date, including the cost of claims incurred but not yet reported to CBHS.

The estimated cost of claims includes direct expenses to be incurred in settling claims and any risk equalisation related to the hospital and medical portion of claims. CBHS takes all reasonable steps to ensure that it has appropriate information regarding its claims exposures. Given the uncertainty in establishing claims provisions, a risk margin is added to determine the liability balance.

The risk margin is based on analysis of the volatility of historical claims experience. This past experience is assumed to be representative of future experience.

The estimation of claims incurred but not reported (IBNR) is generally subject to a greater degree of uncertainty than the estimation of the cost of settling claims already notified to CBHS, where more information about the claim event is generally available. IBNR claims may often not be apparent to CBHS until several months later. In calculating the estimated cost of unpaid claims CBHS uses a variety of estimation techniques, generally based upon actuarial analyses of historical experience, which assumes that the development pattern of the current claims will be consistent with past experience. Allowance is made, however for changes or uncertainties which may create distortions in the underlying assumptions or which might cause the cost of unsettled claims to increase or reduce when compared with the cost of previously settled claims including:

- changes in internal or external processes which might accelerate or slow down the payment of claims, compared with the information from previous periods;
- the effects of inflation;
- medical and technological developments;

- increase in membership;
- increase in utilisation; and
- seasonal changes in utilisation.

Details of specific assumptions used in deriving the outstanding claims liability during the year are detailed in note 30(a).

ii. Unexpired risk liability

In estimating the unexpired risk liability, CBHS uses a variety of estimation techniques, generally based upon actuarial analyses of historical experience. Allowance is made, however for changes or uncertainties which may create distortions in the underlying assumptions or which might cause the cost of future claims to increase or reduce in a similar manner with the outstanding claim liability.

Details of specific assumptions used in deriving the unexpired risk liability during the year are detailed in note 30(b).

2) Net Claims Incurred

	2013		2013		2013	
	Current Year		Prior Years		Total	
	Provision Movement \$	Profit and loss \$	Provision Movement \$	Profit and loss \$	Provision Movement \$	Profit and loss \$

Outstanding claims liability movements are as follows:

	2013	2012
	\$	\$
Opening balance	(27,159,320)	(26,727,900)
Prior year claims, risk equalisation and levies paid	21,565,972	20,519,360
Write back to profit and loss	5,593,348	6,208,540
2013 provision established claims, risk equalisation and levies paid	(27,983,875)	(27,159,320)
Closing balance	(27,983,875)	(27,159,320)
Net claims incurred	(824,555)	(431,420)

See Note 19 for detail

3) Investment and other income

	2013	2012
	\$	\$
Interest revenue:		
Cash and cash equivalents	1,142,577	967,059
Term deposits	5,178,564	5,499,178
Floating rate notes and bank bills	-	103,458
Distributions	1,411,347	1,252,358
Gain/(loss) on sale of assets	90,986	(97,872)
Licence fee revenue	84,777	82,424
Total	7,908,251	7,806,605

4) Fair value gains / (losses) on financial assets

	2013	2012
	\$	\$
Managed share funds gains/(loss) ^(a)	4,979,693	(1,053,931)
Managed cash funds gains/(loss) ^(a)	-	32,409
Managed bond fund gains/(loss) ^(a)	379,428	326,014
Managed multi assets fund gains/(loss) ^(a)	196,612	-
Floating rate notes and bank bills gains/(loss) ^(b)	-	23,600
Net gains/(losses)	5,555,733	(671,908)

a) Fair value of managed funds is based on unit prices provided by fund managers at 30 June 2013.

b) The primary determinant of bank bill and floating rate note (FRN) valuations is the credit spread to bills or the margin at which the financial markets are prepared to trade the relevant paper.

5) Government levies

	2013	2012
	\$	\$
NSW, ACT ambulance levies	3,512,952	3,256,782
Other levies	-	82,568
Total	3,512,952	3,339,350

6) Depreciation and amortisation expense

	2013	2012
	\$	\$

Insurance	92,112	98,914
Other expenses	788,976	659,927
Total	8,156,281	5,880,764

8) Cash and cash equivalents

	2013	2012
	\$	\$
Cash at bank	2,272,756	1,434,922
Cash deposits – “24 hour At-Call”	39,914,816	25,730,399
Cash on hand	550	550
Total	42,188,122	27,165,871

9) Current trade and other receivables

	2013	2012
	\$	\$
Premium receivable ^(a)	11,391,264	12,974,988
Investment income receivable	2,191,194	2,479,549
Sundry debtors	18,700	96,142
Total	13,601,158	15,550,679

a) Premium receivable comprises two components, the Federal Government's Private Health Insurance Rebate Scheme (PHI Rebate Scheme) \$8,528,990 (2012: \$10,495,491) and members who pay for their contributions in arrears or who are non-financial \$2,862,274 (2012: \$2,479,497).

- The rebate is accrued on a monthly basis and payment is due and payable within 30 days in the following month. Payment is normally received by the 15th day of the following month.
- The credit period for members who pay their contributions in arrears is 14 days. 14% of CBHS' members pay for their contributions in arrears while the other 86% pay their contributions in advance. Members who fall into arrears by more than 14 days are not charged interest however they are classified as "non-financial" and no benefit will be paid. CBHS Fund Rules state that if a member is non-financial for more than two months membership may be terminated. Consequently, for members who are non-financial for more than two months, the accrued premium income is reversed out of the profit and loss account and no allowance for impairment is provided.

Premium receivable for members in arrears at year end is made up of approximately 11,454 (2012: 12,335) members.

Medicare Australia is the only significant counterparty as at reporting date. Medicare Australia is the arm of the Federal Government that manages the PHI Rebate Scheme. As at 30 June 2013 the amount owing to CBHS from Medicare Australia was \$8,528,990. This amount is guaranteed by the Federal Government.

10) Current financial assets at fair value through profit or loss

	2013	2012
	\$	\$
Term deposits ^(a)	57,000,000	83,450,000
Total	57,000,000	83,450,000

a) These term deposits have maturity dates ranging from 17 July 2013 to 17 May 2014. The weighted average interest rate on these term deposits is 4.63% (2012: 5.73%).

11) Assets classified as held for sale

	2013	2012
	\$	\$
Non-current assets held for sale		
Property, plant and equipment	-	1,594,233
Land	-	1,000,000
Total	-	2,594,233

The property at 10 Pitt Parramatta NSW 2150 was sold on 24 January 2013 for the amount of \$3,035,875 inclusive of GST.

12) Other current assets

	2013	2012
	\$	\$
Prepayments	138,760	288,890
GST Recoverable	81,101	129,716
Total	219,861	418,606

13) Non-current financial assets at fair value through profit or loss

	2013	2012
	\$	\$
Term deposits ^(a)	18,300,000	22,300,000
Managed multi assets fund at market value ^(b)	9,284,611	-
Managed bond fund at market value ^(c)	18,042,766	14,638,428
Managed share funds at market value ^(d)	37,599,224	20,855,095
Total	83,226,601	57,793,523

a) These term deposits have maturity dates ranging from 19 July 2014 to 19 August 2016. The weighted average interest rate on these term deposits is 6.63% (2012: 6.64%).

b) As at 30 June 2013 CBHS had \$9,284,611 (2012: Nil) invested in an externally managed multi asset fund. The funds are managed by a professional fund manager.

c) As at 30 June 2013 CBHS had \$18,042,766 (2012: \$14,638,428) invested in two externally managed bond funds. The funds are managed by professional fund managers.

d) As at 30 June 2013 CBHS had \$37,599,224 (2012: \$20,855,095) invested in externally managed share funds. This balance is comprised of two managed Australian share funds (\$25,343,302) (2012: \$12,854,028) and a managed International share fund (\$12,255,922) (2012: \$8,001,067). The funds are managed by professional fund managers.

14) Property, plant and equipment

30 June 2013

	Plant and Equipment at cost	Land at fair value	Building at fair value	Total

Balance as at 30 June 2013	-	-

16) Current trade and other Payables

	2013	2012
	\$	\$
Amounts due to the Health Benefits Risk Equalisation Trust Fund ^(a)	8,063,610	7,699,658
Accruals ^(b)	2,017,854	1,048,054
Trade payables ^(b)	424,409	1,293,291
Total	10,505,873	10,041,003

a) The credit period provided to CBHS by PHIAC for amounts due to the Health Benefits Risk Equalisation Trust Fund is 14 days from the date of invoice paid quarterly. Thereafter, interest is charged at 15% on the outstanding balance. CBHS has procedures in place to ensure this payment is made by the due date.

b) For other trade creditors, the credit period on purchases of goods and services can vary between 7 and 30 days. No interest is charged on late payments. CBHS has procedures in place to ensure all payments are made by the due date.

17) Current provisions

	2013	2012
	\$	\$
Employee benefits ^(a)	514,142	414,183
Provision for employee performance payments ^(b)	689,654	555,188
Total	1,203,796	969,371

a) The current provision for employee benefits is annual leave accrued and expected to be paid within 12 months.

b) The provision for employee performance payments is expected to be paid within 12 months.

18) Non-current provisions

	2013	2012
	\$	\$
Employee benefits	620,979	484,882
Total	620,979	484,882

19) Outstanding claims provision

a) Outstanding claims liability

	2013	2012
	\$	\$
Outstanding claims – central estimate of the expected future payments for claims incurred ⁽ⁱ⁾	21,289,000	20,136,000
Risk margin ⁽ⁱⁱ⁾	1,458,875	1,537,320
Claims handling costs	677,000	637,000
Risk equalisation	4,559,000	4,849,000
Gross outstanding claims liability	27,983,875	27,159,320

i) The expected future payments are not discounted due to the short tail nature of health insurance, as claims are generally settled within twelve months.

ii) The risk margin of 5.50% (2012: 6.00%) of the underlying liability has been estimated to equate to a probability of adequacy of approximately 75% (2012: 75%).

b) Risk margin

Process for determining risk margin

The outstanding claims risk margin was determined allowing for the relative uncertainty of the outstanding claims central estimates for health insurance contracts issued by CBHS. Uncertainty was analysed by comparing the initial outstanding claims central estimates of past months with that provision again determined after a further period of processing allowing for more accurate estimates of the outstanding claims. The relative differences between the initial central estimate of the provision and the later central estimate of the provision are then analysed to provide a basis from which to set the risk margin.

Although there are some claims paid for health insurance services that have been incurred for more than 12 months, these claims are small in number. Most activity in hospital and medical benefits after more than 12 months of the date of service are reversals due to compensation settlements. This activity is usually around 0.10% to 0.60% of total incurred claims in a month. (CBHS pays claims that are likely to be subject to compensation when the claimant gives an undertaking that the benefits will be repaid to CBHS upon compensation settlement). Also around 0.7% of ancillary benefit services for which benefit is payable are claimed (and paid) more than 12 months after the date of service. These very small changes in the total incurred claims in any month are reasonably predictable and included in the estimated provision that is determined 12 months after the initial provision date.

The overall provision is intended to have a 75% probability of adequacy.

	2013	2012
Risk margin	5.50%	6.00%

c) Reconciliation of movement

	2013	2012
	\$	\$
Changes in the gross outstanding claims liabilities can be analysed as follows:	27,159,320	26,727,900
As at 1 July	250,752,053	225,202,229
Claims incurred during the year	(249,927,498)	(224,770,809)
Claims paid during the year		
As at 30 June	27,983,875	27,159,320

20) Unearned premium liability

	2013	2012
	\$	\$
Unearned premium liability as at 1 July	29,878,806	10,937,074
Deferral of premiums on contracts written in the period	25,437,881	29,878,806
Earning of premiums written in previous periods	(29,878,806)	(10,937,074)
Unearned premium liability as at 30 June	25,437,881	29,878,806

21) Unexpired risk liability

The liability adequacy test is performed to determine whether the unearned premium liability is adequate to cover the present value of expected cash flows relating to future claims arising from rights and obligations under current insurance contracts, plus an additional risk margin to reflect the inherent uncertainty in the central estimate.

The liability adequacy test is performed at the level of a portfolio of contracts that are subject to broadly similar risks and that are managed together as a single portfolio.

If the present value of the expected future cash flows relating to future claims plus the additional risk margin to reflect the inherent uncertainty in the central estimate exceeds the insurance liability then the insurance liability is deemed to be deficient. CBHS applies a risk margin to achieve the same probability of sufficiency for future claims as is achieved by the estimate of outstanding claims liability. The entire deficiency is recognised immediately in the statement of comprehensive income. The deficiency is recognised in the balance sheet as the "Unexpired Risk Liability" (URL).

CBHS performed the liability adequacy test and has recognised a reduction of \$1,165,469 in the unexpired risk liability as at 30 June 2013 (2012: \$200,000).

a) Unexpired risk liability

	2013	2012
	\$	\$
Unexpired risk liability as at 1 July	1,165,469	1,365,469
(Decrease)/increase recognition of additional risk liability in the period	(1,165,469)	(200,000)
Unexpired risk liability as at 30 June	-	1,165,469

Unexpired risk liability includes a risk margin of 2.75% (2012: 3.0%)

b) Movement recognised in the statement of comprehensive income

	2013	2012
	\$	\$
Gross movement in unexpired risk liability	(1,165,469)	(200,000)
Net movement in unexpired risk liability	(1,165,469)	(200,000)
Total movement recognised in the income statement	(1,165,469)	(200,000)

C) Calculation of deficiency

	2013	2012
	\$	\$
(i) Unearned premium liability component		
Unearned premium liability (A)	23,812,524	28,008,587
Central estimate of expected future cash flows arising from future claims on unearned premium liability (B)	22,966,942	27,588,642
Risk margin of 2.75% at 75% PoA* (C) (2012: 3.0%)	617,103	1,011,380
Net deficiency (B+C-A)	-	(591,435)
(ii) Unclosed business liability component		
Unclosed business liability (A)	1,625,357	1,870,219
Central estimate of expected future cash flows arising from future claims on unearned premium liability (B)	1,567,641	1,814,011
Risk margin of 2.75% at 75% PoA* (C)	42,121	53,138
Net deficiency (B+C-A)	-	-
(iii) Insurance contracts renewable before the next pricing review		
Insurance contracts renewable before the next pricing review (A)	216,923,134	5,387,217
Central estimate of expected future cash flows arising from future claims on insurance contracts renewable, allowing for differences between classes (B)	209,220,193	5,783,764
Risk margin 2.75 at 75% PoA* (C)	5,621,576	177,487
Net deficiency (B+C-A)	-	(574,034)
TOTAL DEFICIENCY (I)+(II)+(III)	-	(1,165,469)

* Probability of Adequacy

22) Total reserves

	2013	2012
	\$	\$
Assets revaluation reserve		
Balance at beginning of financial year	-	311,642
Revaluation increments / (decrements)	-	(311,642)
Balance at end of financial year	-	-
The asset revaluation reserve comprises revaluations of land and building. Note this building was sold in financial year ending 2013.		
Retained surplus		
Balance at beginning of financial year	118,023,140	98,806,646
Operating surplus	14,371,245	19,216,494
Total retained surplus end of financial year	132,394,385	118,023,140
BALANCE AT END OF FINANCIAL YEAR	132,394,385	118,023,140

23) Notes to the cash flow statement

a) Reconciliation of cash and cash equivalents

For the purpose of the cash flow statement, cash and cash equivalents includes cash on hand and in the bank net of outstanding bank overdrafts. Cash and cash equivalents at the end of the financial year as shown in the cash flow statement is reconciled to the related items in the balance sheet as follows;

	2013	2012
	\$	\$
Cash and cash equivalents	42,188,122	27,165,871
Total	42,188,122	27,165,871

b) Reconciliation of operating surplus to net cash flows from operating activities

	2013	2012
	\$	\$
Operating surplus	14,371,245	19,216,494
Interest received and receivable	(7,732,488)	(7,822,053)
Depreciation and amortisation	472,107	396,346
Net (increment)/decrement arising from the revaluation of current and non-current financial assets	(5,555,733)	671,908
(Gain)/loss on sale of assets	(90,986)	97,872
(Increase)/decrease in current receivables	1,661,166	(5,372,868)
(Increase)/decrease in other current assets	198,745	(102,990)
Increase in amount payable for HBREE*	363,952	(342)
Increase/(decrease) in accounts payable and accruals	100,918	839,550
Increase/(decrease) in unearned premium liability	(4,440,925)	18,941,732
Increase in outstanding claim liability	824,555	431,420
(Decrease) in unexpired risk liability	(1,165,469)	(200,000)
Increase in current provisions	234,425	81,369
Decrease in non-current provisions	136,097	110,748
Total	(622,391)	27,289,186

* HBREE - Health Benefits Risk Equalisation Expense

24) Related Parties

During the year all of the Directors of CBHS were members of the Fund. Membership was on terms and conditions no more favourable than those adopted when dealing with an unrelated individual in an arm's length transaction.

25) Remuneration of auditors

	2013	2012
	\$	\$
Auditing the financial report	98,400	95,600
Other audit services	24,600	23,900
Other non-audit services	4,500	4,500
Total	127,500	124,000

The auditor of CBHS is PricewaterhouseCoopers.

26) Remuneration of directors and other key management personnel

Key management personnel include:

- 8 Non-Executive Directors (Note: Ms R Ryan retired on 8 November 2012)
- 6 Executive Managers

a) Directors remuneration

	2013	2012
	\$	\$
Short-term employment benefits	256,917	254,041
Post-employment benefits (9% statutory superannuation guarantee)	23,123	22,864
Total directors remuneration	280,040	276,905

b) Other key management personnel remuneration

	2013	2012
	\$	\$
Short-term employment benefits	1,426,724	1,184,331
Post-employment benefits (9% statutory superannuation guarantee)	112,702	99,440
Total key management personnel remuneration	1,539,426	1,283,771
Total directors and other key management personnel Remuneration	1,819,466	1,560,676

27) Liability of members

CBHS is a company limited by guarantee, incorporated and operating in Australia. The liability of the members is limited. Every voting member of CBHS undertakes to contribute to the assets of CBHS, in the event of CBHS being wound up while still a voting member, or within one year after ceasing to be a voting member, for payment of the debts and liabilities of CBHS (contracted before ceasing to be a voting member) and of the costs, charges and expenses of winding up, not exceeding ten dollars (\$10.00).

28) Contingent liability

There are no contingent liabilities that we are aware of that may affect the financial position of CBHS in the future.

29) Lease Commitments

Non-cancellable operating leases

CBHS leases office space under a non-cancellable operating lease which expires in ten years. The lease has varying terms, escalation clauses and renewal rights. On renewal, the terms of the lease are renegotiated.

	2013	2012
Commitments for minimum lease payments in relation to non-cancellable operating lease are payable as follows:	\$	\$
Within one year	459,273	459,273
Later than one year but not later than five years	2,296,365	2,296,365
Later than five years	1,377,823	1,817,096
Total	4,133,461	4,592,734

30) Actuarial assumptions and methods

a) Outstanding claims liability

Hospital, Medical, Ambulance and Ancillary Cover

With the insured services of these products there can be some months delay between the incurred service and the service being paid by CBHS. The ultimate expected cost for these claims is determined by projecting the known claims reported and paid using historic patterns of claim development.

Actuarial assumptions

The following assumptions have been made in determining the outstanding claims liabilities.

Estimate	Key Variable 2013	Key Variable 2012
Estimated Medical and Ancillary Incurred Claims Cost for June 2012	\$8,606,559	\$7,719,000
Estimated Hospital Incurred Claims Cost for June 2012	\$10,316,443	\$10,848,000
Claims Handling Expense – Hospital	2.50%	2.50%
Claims Handling Expense – Medical and Ancillary	5.00%	5.00%
Risk equalisation (Outstanding Claims Component)	25.00%	28.00%
Risk Margin	5.50%	6.00%

Process used to determine assumptions

Hospital & Medical Incurred Claims Cost

This is determined by projecting the total paid claims for each month incurred at the balance date using seasonal factors and historic reporting patterns.

Ancillary Incurred Claims Cost

This is determined by projecting the total paid claims for each month incurred at the balance date using historic patterns.

Claims Handling Expense Rate

Claims handling expenses were calculated by reference to past experience of claims handling costs as a percentage of past claims.

Risk equalisation (Outstanding Claims Component)

This is determined by applying the projected relationship between net risk equalisation claims and paid claims to the hospital and medical outstanding claims.

Sensitivity analysis

Summary

CBHS conducts sensitivity analyses to quantify the exposure to risk of changes in the key underlying variables. The valuations included in the reported results are calculated using certain assumptions about these variables as disclosed.

Impact of changes in key variables

	Key Variable Change	Changes in Outstanding Claims Component*	Key Variable Change	Changes in Outstanding Claims Component*
	2013	2013	2012	2012
Incurred claims for June 2012	+10%	\$2,270,000	+10%	\$2,278,000
	-10%	(\$2,270,000)	-10%	(\$2,278,000)
Expense rate	+10%	\$68,000	+10%	\$66,000
	-10%	(\$68,000)	-10%	(\$66,000)
Risk equalisation (OSC Component)	+10%	\$456,000	+10%	\$499,000
	-10%	(\$456,000)	-10%	(\$499,000)

*Excludes risk margin

b) Unexpired risk liability

Actuarial assumptions

The following assumptions have been made in determining the unexpired risk liabilities. The table below is a combination of the unexpired risk liabilities from 1) unearned premium liability and 2) insurance contracts to be renewed before next pricing review.

Estimate	Key Variable	Key Variable
	2013	2012
Estimated Claims Cost	\$169,422,343	\$154,137,000
Risk equalisation (relating to above estimated claim)	15.60%	17.74%
Risk margin	3.30%	3.67%

Process used to determine assumptions

Estimated Claim Cost

This is determined by projecting the claims from (1) unearned premium liabilities and (2) renewable contracts to the next pricing review, based on historic reporting patterns.

Risk equalisation (relating to above estimated claim)

The proportion of claims for each product that are claimed under the risk equalisation arrangements is kept constant. The net deficit per single equivalent unit is projected based on using CBHS experience of the average change from quarter to quarter.

Process for determining the risk margin

The risk margin was determined allowing for the relative uncertainty of the budget projection central estimates of benefits. The budget projection is used to determine the likely future claims experience of the unearned premiums and contractual obligations.

Uncertainty was analysed by comparing the nine month rolling central estimates of budgeted benefits with those actually incurred. The relative differences between the central estimate of the budget forecasts and the actual benefits are then examined on an empirical basis, providing the basis for the selected risk margin.

The liability is intended to have a 75% probability of adequacy.

	2013	2012
Risk margin	2.75%	3.00%

Sensitivity analysis

Summary

CBHS conducts sensitivity analyses to quantify the exposure to risk of changes in the key underlying variables. The valuations included in the reported results are calculated using certain assumptions about these variables as disclosed.

Impact of changes in key variables

	Key Variable Change	Changes in Outstanding Claims Component*	Key Variable Change	Changes in Outstanding Claims Component*
	2013	2013	2012	2012
Estimated Claims Cost	+10%	\$17,124,104	+10%	\$19,146,000
	-10%	-	-10%	(\$1,165,000)
Risk equalisation (relating to above estimated claim)	+10%	\$704,391	+10%	\$2,472,000
	-10%	-	-10%	(\$1,165,000)

* Excludes risk margin

31) Insurance contracts – risk management policies and procedures

The financial condition and operation of CBHS is affected by a number of key risks including insurance risk, interest rate risk, credit risk, market risk, liquidity risk, compliance risk, fiscal risk and operational risk.

The Board of Directors of CBHS determines the entity's risk appetite and approves the risk management strategies, policies and practices to ensure that risks are identified and managed within the context of this appetite.

Some of the key features of CBHS's risk management framework include the:

- Audit Committee's responsibility is to assist the Board fulfil its statutory and fiduciary duties relating to the financial reports, the risk management framework, the independence of the auditors and regulatory compliance;
- Investment Committee's responsibility to monitor investment-related activities;
- annual endorsement of a Risk Management Plan which sets out the ways in which CBHS will mitigate strategic and operational risks;
- monitoring and management of risk through the utilisation of risk management software; and
- various internal policies, procedures and information systems including:
 - CBHS Management's regular assessment and reporting on key risks. Risk profiles are reviewed regularly and where necessary policies and procedures are implemented to mitigate the risk;
 - the specific identification and addressing of insurance risk within the CBHS risk profile;
 - the Internal Audit function which provides management and the Board independent assurance of the internal control environment;
 - the annual Management Certification and Representation Questionnaire provides the Board from management about the accuracy of the representation of financial data and the effectiveness of internal controls;
 - an investment strategy heavily weighted to defensive investment assets and capital preservation;
 - the monitoring and review of compliance with Solvency and Capital Adequacy standards as required by the Private Health Insurance Act 2007, and the strategic benchmarks set by the Board;
 - the setting of key performance indicators under the annual Business Plan together with the monitoring and re-forecasting of targets throughout the course of the year;
 - a product design and approval process that includes sign-off by business units (Marketing, Finance and Operations), the Appointed Actuary and Legal prior to Board approval;
 - a rigorous pricing review;
 - review and approval of the budget and forecast/s compiled by management; and
 - continuous monitoring of performance against budget and forecast/s.

Insurance Risk

The provision of Private Health Insurance in Australia is governed by the Private Health Insurance Act 2007. The regulatory factors which impact CBHS' insurance risk include the:

- principle of community rating which precludes health insurers from discriminating against people based on factors which include medical condition, gender, race, religious belief or age;
- Risk Equalisation scheme which, in effect, re-allocates some of the risk of private health insurers which relates to the age profiles of their health benefits funds; and
- review and approval by the Federal Minister for Health and Ageing of all Health Insurance premium increases.

Concentration Risk

CBHS is a not for profit private health insurer, exclusively for current and former employees of the Commonwealth Bank Group as well as their family members.

This exclusive market base is key to the diversified CBHS policyholder membership base.

Credit Risk

Credit Risk is the potential of loss arising from failure of a debtor or counterparty (in relation to loans to counterparty), to meet their contractual obligations.

CBHS is exposed to credit risk through the operation of its Private Health Insurance business and management of its financial assets (credit risk of financial assets is addressed in Note 33f).

In terms of non financial assets, credit risk relates to HIC Rebate Receivable (a government organisation administering the Private Health Insurance Government rebate scheme) and Premium Receivable from policyholders. Premiums in arrears are continuously monitored. No claims are paid on policies with contributions in arrears.

Interest Rate Risk

CBHS's interest rate risk is limited to those of its financial assets (see note 33d).

All other receivables are non interest bearing.

Compliance Risk

In operating a health benefits fund, CBHS is required to comply with the requirements set out in the Private Health Insurance Act 2007.

CBHS has established internal controls to ensure that it meets its compliance requirements under the Act. These measures include:

- external legal input in relation to the drafting of its health benefits fund rules;
- dedicated compliance reviews of operational practices;
- regular documented internal control reviews of changes to regulations;
- completion of the annual Directors' Questionnaire by operational managers; and
- internal audit assessments of compliance arrangements.

Other

Market Risk and Liquidity Risk are addressed at Note 33.

32) Segment information

CBHS operates only in one business and geographical segment, which is providing private health insurance and related wellbeing services in Australia.

33) Financial instruments

a) Capital risk management

CBHS manages its capital to ensure that it will be able to:

- continue as a going concern;
- fund ongoing returns to members via growth in health benefits and minimisation of future increases in contribution rates; and
- meet the capital adequacy requirements set by PHIAC.

The capital risk management strategy remains unchanged from 2010.

b) Significant accounting policies

Significant accounting policies, including the criteria for recognition, the basis of measurement and the basis on which revenue and expense are recognised in respect of each class of financial asset and liability are disclosed in Note 1.

c) Financial risk management objective

CBHS principal financial instruments comprise receivables, payables, short and long term deposits and units in managed funds. CBHS manages its exposure to key financial risks in accordance with the company's risk management framework. The objective of the risk management framework is to protect the future financial assets of CBHS.

The main risks arising from CBHS financial instruments are market risk (including interest rate and price risk), credit risk and liquidity risk. CBHS uses different methods to measure and manage different types of risks to which it is exposed. These include monitoring levels of exposure to interest rate risks and assessments of market forecasts for interest rates. Ageing analyses are monitored to manage credit risk and liquidity risk is monitored through the development of rolling cash flow forecasts.

The primary responsibility for identification and control of financial risks rests with the Chief Executive Officer and Chief Financial Officer.

There has been no change to CBHS' exposure to financial risks or the manner in which it manages and measures the risks from the previous year.

d) Interest rate risk management

CBHS is exposed to interest rate risk on its investment portfolio and bank deposits. The investment portfolio comprises both fixed and floating interest rate investments. The risk is managed by maintaining a high proportion in fixed interest rate investments. As at 30 June 2013 the fair value of investments with a fixed interest rate was \$75,300,000 (2012: \$105,750,000).

CBHS' exposures to interest rates on financial assets are detailed below:

	Weighted average effective interest rate	2013	2012
	%	\$	\$
Cash deposits – "24 hour at call"	2.98%	39,914,816	25,730,399
Term deposits designated at fair value through profit or loss	5.12%	75,300,000	105,750,000

Interest rate sensitivity analysis

The sensitivity analyses below has been determined on the exposure to interest rate movements on the investment portfolio at reporting date and the stipulated change taking place at the beginning of the financial year and held constant throughout the reporting period. A 25 basis point increase or decrease is used when reporting interest risk internally to key management personnel and represents management's assessment of the possible change in interest rates.

At reporting date, if interest rates had moved, as illustrated in the table below, with all other variables held constant, net profit would have been affected as follows:

	Surplus Higher/(Lower)	
	2013	2012
	\$	\$
+0.25% (25 basis points) per annum	188,250	264,375
-0.25% (25 basis points) per annum	(188,250)	(264,375)

This is mainly attributable to CBHS' exposure to variable interest rates on its investments.

e) Price risks

CBHS is exposed to price risks arising from its investments in cash, share, bond and multi asset managed funds. These investments are held for strategic rather than trading purposes. CBHS mitigates its price risk with an investment policy weighted to defensive natured assets.

Price risk sensitivity – managed funds

The sensitivity analyses below have been determined based on the exposure to unit price risks at the reporting date. If the unit prices of the managed funds had moved as illustrated in the table below, with all other variables held constant, net profit would have been affected as follows:

	Surplus Higher/(Lower)	
	2013	2012
	\$	\$
+5% per annum	3,065,984	1,363,175
-5% per annum	(3,065,984)	(1,363,175)

f) Credit risk management

Credit risk is the potential for loss arising from the failure of a debtor or counterparty (in relation to loans to that counterparty), to meet their contractual obligations.

CBHS investments are with Board approved financial institutions and managed investment schemes. For investments held directly, these instruments are subject to Board approved counterparty limits.

Credit exposure by credit rating

	2013	2012
	\$	\$
Cash and cash equivalents		
A series rating	39,914,816	25,730,399
B series rating	-	-
Unrated	-	-
	39,914,816	25,730,399
Financial assets at fair value through the profit or loss		
A series rating	75,300,000	97,250,000
B series rating	-	8,500,000
Unrated	64,926,601	35,493,523
	140,226,601	141,243,523

Financial instruments designated as at “fair value through profit or loss”

	2013	2012
	\$	\$
Carrying amount of financial instruments designated as at “fair value through profit or loss”	75,300,000	105,750,000
Principal amount of financial instruments designated as at “fair value through profit or loss”	75,300,000	105,750,000
Cumulative changes in fair value attributed to changes in credit risk	(362,000)	(1,133,000)
Changes in fair value attributable to changes in credit risk recognised during the period	771,000	(1,391,000)

At reporting date there are no significant concentrations of credit risk relating to loans and receivables at fair value through profit or loss. The carrying amount reflected above represents CBHS maximum exposure to credit risk for such loans and receivables.

g) Liquidity risk management

Liquidity risk arises from the possibility that CBHS may be unable to settle a transaction on the due date. The ultimate responsibility for liquidity risk management rests with the Chief Executive Officer and Chief Financial Officer. CBHS manages liquidity risk by maintaining adequate reserves, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. CBHS continues to review its Capital Management Plan to assist in managing the company's medium and long term funding and liquidity requirements.

Liquidity and interest risk tables

The following table details CBHS' remaining contractual maturity for its non-derivative financial liabilities. The table outlines the undiscounted cash flows of financial liabilities based on the earliest date on which CBHS can be required to pay. The table only includes principal cash flows arising from trade and other payables that are non-interest bearing.

	Less than 1 month	1-3 months	3 months to 1 year	1-5 years	5+ years
2013	1,433,336	9,072,537	-	-	-
Trade and other payables					
2012	1,293,291	8,747,712	-	-	-
Trade and other payables					

h) Fair value control framework

Fair values are subject to a control framework designed to ensure that they are either determined, or validated, by a function independent of the risk taker. The ultimate responsibility for the determination of fair values lies with the Chief Financial Officer who establishes the accounting policies and procedures governing valuation, and is responsible for ensuring that these comply with relevant accounting standards.

For fair values determined by reference to external quotation or evidenced pricing parameters, independent price determination or validation is utilised. At 30 June 2013, all financial instruments held by CBHS were traded in active markets.

The fair value measurements have been classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- i. Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- ii. Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2); and
- iii. Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

i) Fair value of financial instruments

As at 30 June 2013, the split of the financial assets at fair value through the profit and loss into the fair value hierarchy is as follows:

2013	Level 1	Level 2	Level 3	Total
	quoted prices in active markets (i)	valuation techniques based on observable market data (ii)	valuation techniques incorporating information other than observable market data (iii)	
Assets				
Fair value through profit or loss				
Term deposits	\$75,300,000	-	-	\$75,300,000
Managed multi asset fund	9,284,611	-	-	9,284,611
Managed share funds	\$37,599,224	-	-	\$37,599,224
Managed bond fund	\$18,042,766	-	-	\$18,042,766
Total	\$140,226,601	-	-	\$140,226,601

As at 30 June 2012, the split of the financial assets at fair value through the profit and loss into the fair value hierarchy is as follows:

2012	Level 1	Level 2	Level 3	Total
	quoted prices in active markets (i)	valuation techniques based on observable market data (ii)	valuation techniques incorporating information other than observable market data (iii)	
Assets				
Fair value through profit or loss				
Term deposits	\$105,750,000	-	-	\$105,750,000
Managed share funds	\$20,855,095	-	-	\$20,855,095
Managed bond fund	\$14,638,428	-	-	\$14,638,428
Total	\$141,243,523	-	-	\$141,243,523

At 30 June 2013, all financial instruments held by CBHS are traded in active markets, hence level 1. Financial assets are valued using unadjusted quoted prices in active markets for identical assets. Financial assets in this category are managed funds.

Quoted unit prices for the managed funds are provided by the respective fund manager. The unit price is determined based on the sum of the last traded prices of the underlying shares at the end of the trading day divided by the number of units issued to unit holders. When determining the fair value of the managed fund the exit unit price is used.

The directors consider that the carrying amounts of the financial assets and liabilities in the financial statements approximate the fair values.

34) Solvency Reserve

The Solvency Reserve, with respect to the Private Health Insurance (Health Benefits Fund Administration) Rules 2007, is \$21,108,571. Net assets are \$132,394,385 representing an excess of \$111,285,814 over the Solvency Reserve.

35) Additional company information

CBHS is a public company, limited by guarantee, incorporated and operating in Australia.

Directors' Declaration

In the directors' opinion:

- (a) the financial statements and notes set out between pages 32 to 73 are in accordance with the Corporations Act 2001, including:
 - i. complying with Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements, and
 - ii. giving a true and fair view of the company's financial position as at 30 June 2013 and of its performance for the financial year ended on that date, and
- (b) there are reasonable grounds to believe that the company will be able to pay its debts as when they become due and payable.

Note 1 confirms that the financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

The directors have been given the declarations by the chief executive officer and chief financial officer as required by section 295A of the Corporations Act 2001.

This declaration is made in accordance with a resolution of the directors.

Dated at Sydney 29th day of August 2013

Independent auditor's report to the members of CBHS Health Fund Limited

Report on the financial report

We have audited the accompanying financial report of CBHS Health Fund Limited (“the fund”), which comprises the balance sheet as at 30 June 2013, the statement of comprehensive income and statement of cash flows for the year ended on that date, a summary of significant accounting policies, other explanatory notes and the directors’ declaration.

Directors’ responsibility for the financial report

The directors of the fund are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors of the fund determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 1, the directors also state, in accordance with Accounting Standard AASB 101 Presentation of Financial Statements, that the financial statements comply with International Financial Reporting Standards.

Auditor’s responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant

ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

Our procedures include reading the other information in the Annual Report to determine whether it contains any material inconsistencies with the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

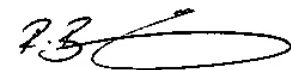

Auditor’s opinion

In our opinion:

- (a) the financial report of CBHS Health Fund Limited is in accordance with the Corporations Act 2001, including:
 - (i) giving a true and fair view of the fund’s financial position as at 30 June 2013 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Regulations 2001; and
- (b) the fund’s financial report also complies with International Financial Reporting Standards as disclosed in Note 1.
