

# Your health check cheat-sheet for women

## MONTHLY

**Breast self-check** All ages

## EVERY 3 MONTHS

### Skin check

Perform regular self-checks, looking for new or changed spots. Speak to your GP if you notice anything suspicious. The Cancer Council recommends that people at higher risk of skin cancer should discuss a plan of how often they should check their skin with their doctor. They may need a full professional skin examination as often as every six months.

## YEARLY

**STI screening** Sexually active women of all ages should discuss with their GP about how often to screen for STIs.

**Bone health** Once a year from age 45 or post-menopause

**Dental check** All ages

**Hearing test** Once a year from age 65

**Vaccination review** At least once a year, all ages

## EVERY 2-5 YEARS

**Blood pressure** Every two years from age 18

**Bowel cancer screening** Every two years from age 50 for the general population

**Breast cancer screening mammogram** Every two years from age 50-74

**Heart health check** At least every two years from age 45, or 30 for Aboriginal and Torres Strait Islander women

**Diabetes screening** At least every three years from age 40

## EVERY 5 YEARS

### Cholesterol check

Every 5 years from age 45, or 30 for Aboriginal and Torres Strait Islander women.

### Cervical screening (formerly Pap smear)

Every 5 years from age 25 to 70-74. Or two years from when you start having sex.

## AS NEEDED

### Pre-pregnancy care

As needed, once you are of childbearing age.

### Eye test

From age 65, if/when you notice vision problems. Or, speak to your GP if you have a family history of eye problems.

### Mental health check

If you are experiencing symptoms such as sadness, irritability, fatigue or anxiety; have had changes to your eating or sleeping habits; or have any other mental health concerns, speak to your GP.

*Family history or increased personal risk factors may change how often/early you may have to do these check-ups. Always consult with a GP if you are uncertain or have been experiencing any symptoms.*
